DETAILED ACTION

1. Applicant's response filed on 01/30/2001 has been fully considered. The formal rejection is withdrawn in view of Applicant's comment.
2. No claims are amended, added or canceled. Claims 1-8, 51 and 52 are pending.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-8, 51 and 52 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for heated coal slag or coal fly ash, does not reasonably provide enablement for coal slag or coal fly ash. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims.
